

# Santos, Francine Hannah D.

## Undergraduate Student

📍 Pasig City, Metro Manila  
📞 +63 917 146 0868  
✉ francine\_santos@dlsu.edu.ph

## OBJECTIVE

- Expand knowledge in multiple languages
- Develop skills important in UI/UX design, information management, and data analysis
- Integrate skills mentioned above to create and improve applications that benefit people in need

## EDUCATION

### Bachelor in Science in Computer Science, Majoring in Software Technology

De La Salle University - Manila | 2021 - 2025

### SHS - Science, Technology, Engineering, and Mathematics Strand

Sacred Heart Academy of Pasig | 2021 - 2023

## PROJECTS

### ManaHealth: Workout and Meal Planner

- Completed as a major course requirement for Human-Computer Interaction (STHCIUX)
- Created the interface of an application that combines a meal and fitness planning while keeping track of personalized goals and progress
- Fulfilled a need-finding study for applications that integrates meal and fitness planning
- Lead the group and contributed to most of the project
- Increased proficiency in data collection and interpretation, as well as a user interface tool called Figma

### Facilities & Resources Record Keeper

- Completed as a major course requirement for Information Management (CCINFOM)
- Developed a database for managing community resources and facilities, created in conjunction with three other groups who covered different aspects of the community's needs
- Lead the three groups in the management for the overall database, and the main group in the development of the application
- Acquired skills in SQL and its integration with Java

### Hotel Reservation System

- Completed as a major course requirement for Object Oriented Programming (CCPROG3)
- Helped develop an application that manages hotel room selection, viewing, and reservation, as well as pricing for different types of rooms
- Contributed to the back-end component of the project
- Acquired skills in object-oriented programming, more specifically Java

### **State of Global Air Dataset Manager**

- Completed as a major course requirement for Programming with Structured Data Types (CCPROG2)
- Created an application that sorted the mentioned dataset in terms of meaningful questions
- Increased proficiency in C

### **Elevens Game**

- Completed as a major course requirement for Logic Formulation and Introductory Programming (CCPROG1)
- Developed a C program of a card game called Elevens with a colored interface, run on the command line
- Increased proficiency in the basics of programming in C and research skills

### **Sugar cane (Bagasse Pulp) as a Sound-absorbing Panel**

- Completed as a major requirement for the Research subject during senior high school
- Led and managed the activities of the group including research, experimentation, documentation, and statistical analysis
- Strengthened skills in research, public speaking, and leadership

## **SKILLS**

Collaboration  
Research  
Attention to Detail  
Creative Problem-solving

## **LANGUAGE & PROGRAMS**

C  
Java  
Ruby  
HTML  
Figma

## **EXTRACURRICULAR ACTIVITIES**

### **Junior Officer under Publicities & Creatives for La Salle Computer Society Organization**

De La Salle University - Manila | 2021 - 2025

### **Publicities & Creatives Member for the Student Council**

Sacred Heart Academy of Pasig | 2022-2023

### **Writer for Sacre Coeur (School Editorial)**

Sacred Heart Academy of Pasig | 2022-2023

## **AWARDS**

### **Graduated Best in Research in the Class**

Sacred Heart Academy of Pasig | 2022-2023

### **Graduated with High Honors**

Sacred Heart Academy of Pasig | 2022-2023
